About Bio-Well

Bio-Well GDV Camera is a revolutionary, non-intrusive way to measure human energy field using a specialized camera and software system.

Bio-Well has been developed by the team of Dr. Konstantin Korotkov and brings the powerful technology known as Gas Discharge Visualization (GDV) or Electro-Photonic Imaging (EPI) technique to market in a more accessible way than ever before. It was developed together with US partners. The product consists of a desktop camera and accompanying software, which allows a user to quickly and easily conduct human energy scans. When a scan is conducted, a weak electrical current is applied to the fingertip for less than a millisecond. In response to this stimulus fingertip emits electrons, which are striking and exciting air molecules. Excited air molecules create gas discharge or glow. This glow is captured by the videocamera and then digital image of the glow is processed by the Bio-Well Software to show energy & stress evaluations. Each scan returns a wealth of meaningful information to provide you with a truly holistic view of the state of your wellbeing.

The intersection of the fingertips glow created in Bio-Well Software is based on the concept of Acupuncture points and is verified by more than 20 years of clinical studies by hundreds of medical doctors and researchers with many thousands of patients. The scanning process is quick, easy and non-intrusive. Get real time feedback on factors affecting your energy state. View each scan in a variety of interesting ways with up to 9 result display options. With the Bio-Well accessories like Sputnik sensor, Water sensor or Bio-Well Glove measure energy of environment, human emotions and water energies!

Bio-Well presents analysis of the Energy Field and allows to see its day-to-day transformation and the influence of different treatments, situations and stimulus to the Energy Field and hence, to the condition of a person. Friendly software makes data processing simple and convenient for non-experienced users. With Bio-Well you do not need to be a scientist to make full-scale scientific research! Bio-Well is being used by thousands of doctors, practitioners and researchers worldwide. Bio-Well does not measure the anatomical structure of the body, but records functional/energetic condition of organs and systems at the moment of measurement.

Bio-Well analysis has the following outcomes:

- Allows to define organs and systems of the body which need attention.
- Makes assessment of the follow up response of the body to different influences (treatments, emotions, mobile phone, etc).
- Provides information on psycho-emotional state and level of stress (anxiety).
- Allows easily measure response of the body to different medications, supplements and food.

Bio-Well GDV Camera is present in more than 70 countries. To get more information go to www.bio-well.com.

Bio-Well is not a medical instrument, it is not designed for medical diagnostics, it measures energy and stress of a person. In case of health concerns, please, consult your doctor.

Energy Field

Energy 30 Joules ($\times 10^{-2}$)

Human Energy Field - is the most sensitive reflection of the physical, emotional and, in some cases, spiritual condition of a person.

Light around the model of a human body - is a projection of various sectors from the fingers images for easier assessment. These images are used for structural analysis of glow.

It is not aura. The colors are artificial. Actual glow is grey-scale.

Bio-Well is not a medical instrument, it is not designed for medical diagnostics, it measures energy and stress of a person. In case of health concerns, please, consult your doctor.

Chakras

Alignment 95%

According to Eastern metaphysical theories and principles of Ayurvedic Indian medicine, there are seven "Chakras" or integrated energy centers that are considered to affect physical, mental, emotional, and spiritual well-being. In the Bio-Well programs Chakras reflect emotional state of a person. Chakras are related to energy flow internally and externally. They are not stable and may change every other minute. Stability of Chakras is indication of emotional balance of a person. Ideal balance of Chakras may be seen for people involved in daily meditation and mental training.

Shift of Chakras to the right or left (when we look to the picture) can be related to the inner emotional reactions of a person or to the response to environmental situation (other people, electromagnetic fields, weather, etc).

Chakras

Psychosomatic approach. Connection of functional state of organs with psychological state.

Energy centers (or Chakras) are calculated according to the organs and systems situated in different parts of the body.

Size of the center – medium level of energy of organs and systems that correspond to this center.

Balance of the center (Left/right orientation) – is the difference between the energies of the corresponding to the specific center organs and systems on the left and right hands.

Grey/green corridor on the graph – norm. Left side from the center of the image – social life, extraversion. Right side – private life, introversion.

Chakra 1 - Red – self-confidence, sexual power. Extreme introversion – shy and not self-confident person. Extreme extraversion – too self-confident person, searching for proofs of his/her superiority.

Chakra 2 - Orange – material work, job or home. Extreme introversion – don't want to go out of home, evading problems on work. Extreme extraversion – don't want to return home from work, evading house problems.

Chakra 3 - Yellow – willingness to solve problems (personal or other's). Extreme introversion – not eager to help others, concentrated on personal problems. Extreme extraversion – eager to help anyone just not to work on personal problems.

Chakra 4 - Green – love, sympathy, empathy. Extreme introversion – egoist. Extreme extraversion – altruist.

Chakra 5 - Light blue – non-material work (art, painting, poems composition), verbal communication. Extreme introversion – non-communicative person, not sharing his/her art with others. Extreme extraversion – non-stop talking, show-off person.

Chakra 6 - Blue – approach to solving tasks and search of information. Extreme introversion – thinks that there is only one right opinion – own, all others are not. Extreme extraversion – doesn't have own opinion, always ask for help in any situation.

Chakra 7 - Violet – relations with God, fanatic or atheist. Extreme introversion – thinks that he/she can do anything and there will be no consequences. Extreme extraversion – waits when God will solve his/her problems.
